

PRESS RELEASE

AUMUND supplies major clinker conveying machinery packages for Argentinian cement plants

São Paulo / Beijing, December 2018

AUMUND Brazil and AUMUND China joined forces and worked closely with Sinoma Tianjin TDI to claim two orders in succession for the AUMUND Group of Companies from South America.

AUMUND will supply three chain bucket elevators, eight belt bucket elevators, five pan conveyors and a drag chain conveyor for the construction of L'Amali Line 2 at Loma Negra Compañía Industrial, the leading cement producer in Argentina. The order package will be rounded off with 19 silo discharge gates which will be installed under the clinker silo to feed the pan conveyors located there.

PRESS RELEASE

Loma Negra, established in 1926, awarded AUMUND the order in August 2017 to build a second kiln line with a capacity of 5,800 tpd at the L'Amali Plant in Olavarria in Buenos Aires Province. The new line, which will produce 2.7 million tonnes of clinker per year, will be located adjacent to the existing kiln line. Production will start early in 2020.

In June, AUMUND Beijing was able to conclude another successful project in Argentina, together with AUMUND Brazil and Sinoma, to supply four belt bucket elevators, three chain bucket elevators and three pan conveyors via Sinoma TDI to Cementos Avellaneda. Cementos Avellaneda belongs to the Brazilian Votorantim Group and Spanish Molins.

Traditionally AUMUND Brazil has had good working relationships in the oligopoly of cement production in Argentina, where the market is shared between four producers, Loma Negra, Holcim Argentina, Cementos Avellaneda and Petroquímica Comodoro Rivadavia, with 18 manufacturing locations between them.

About the AUMUND Group

The AUMUND Group is active worldwide. The conveying and storage specialists have special expertise at their disposal when dealing with bulk materials. With their high degree of individuality, both its technically sophisticated as well as innovative products have contributed to the AUMUND Group today being a market leader in many areas of conveying and storage technology. The manufacturing companies AUMUND Fördertechnik GmbH (Rheinberg, Germany), SCHADE Lagertechnik GmbH (Gelsenkirchen, Germany), SAMSON Materials Handling Ltd. (Ely, England), as well as AUMUND Group Field Service GmbH and AUMUND Logistic GmbH (Rheinberg, Germany) are consolidated under the umbrella of the AUMUND Group. The global conveying and storage technology business is spearheaded through a total of 15 locations in Asia, Europe, North and South America and a total of five warehouses in Germany, USA, Brazil, Hong Kong and Saudi Arabia.
