## Turkey: Aslan Cement relies on AUMUND Machines for its Upgrade

Rheinberg/Germany, May 2019

**AUMUND Fördertechnik has won a significant order from Turkey. The order from Aslan Cement Inc. comprises nine machines. The company is part of the OYAK Cement Group, one of the leading Turkish cement producers, and an important customer to AUMUND Fördertechnik for many years.**

The order is part of the complete modernisation project at the Aslan plant, which is in Darica, Kocaeli Province, approximately 60 km from Istanbul. The production capacity is to be increased to up to 6,600 tpd of clinker. The extensive AUMUND supply includes a bucket elevator with central chain type BWZ-L (L=low capacity) with a capacity of 225 tph and a centre distance of 27m to feed the raw meal mill, as well as three different models of BWG belt

## PRESS RELEASE

bucket elevators with capacities up to 500 tph and centre distances up to 132m. The belt bucket elevators will also be used for raw meal silo feed, as well as to transport raw meal to the dosing hopper and the heat exchanger.

The order is completed with three pan conveyors type KZB, each with capacities of 350 tph and centre distances of up to 77.2m, to convey clinker from the cooler to the silo, as well as two Rotary Discharge Machines type LOUISE BEW, each with a diameter of 3m and a capacity of 400 tph.

The machines are due to be dispatched in September, and commissioning is planned for the beginning of next year.

### **About the AUMUND Group**

*The AUMUND Group is active worldwide. The conveying and storage specialists have special expertise at their disposal when dealing with bulk materials. With their high degree of individuality, both its technically sophisticated as well as innovative products have contributed to the AUMUND Group today being a market leader in many areas of conveying and storage technology.
