

WE CONVEY QUALITY

AUMUND Group - worldwide

The AUMUND Group promotes its conveying and storage technology for bulk materials on a global scale, with locations in Germany, the UK, China, Brazil, the US, India, France, Russia, Switzerland, UAE and a further network of sales agents in many other countries.

Since incorporation in 1922 the name AUMUND has stood for excellently engineered solutions, performance, quality and innovation. A particular strength is its customer-orientated approach. AUMUND Group equipment is currently operating successfully in over 20,000 references worldwide. All products are subject to strict quality standards. Thanks to a global procurement system and exact knowledge of the local markets, excellent, efficient, economic and pioneering solutions are designed and supplied on time.

Each of the AUMUND Group companies works together as part of a team to give the customers world class technology, competent support on site and a solution tailored to their specific requirements.
